

Unscrambling technology for small business owners.

Services We Offer

- ✓ **Website Maintenance (WordPress)** – We’ve used WordPress for over a decade and would love to help you update content and add new features.
- ✓ **Ecommerce Solutions** – We’re familiar with many ecommerce solutions including WooCommerce for WordPress and other open source cart solutions.
- ✓ **Newsletter Setup & Administration** – We’ve used Mailchimp for over 6 years and integrated it into many websites and stores. We’d be happy to set up your newsletter, integrate it with your website, and help you send it each and every time!
- ✓ **Graphic Design & Maintenance** – Need to have images resized for your website or looking for a quick banner or graphic? We can do that for you.
- ✓ **Promotional Item Creation** – We can help you create bookmarks, postcards, business cards, flyers, and other promotional items. Looking for resources and ideas? We can do that too.

Our goal is quick, friendly virtual assistance for small businesses, where our specialties include entrepreneurs and authors. Our focus is on quality and responsiveness at a price that won’t break your budget. We’ve been working in the publishing and entrepreneur area for almost fifteen years and our experience shows!
